Share

Your private Social Network

An interactive & secure online gallery, providing parents with a personalised experience of their child's journey at your school.

- Supports Photos & Videos

If a picture is worth a thousand words, imagine how much a video is? Bring your school to life through movies & photos which are more meaningful to parents.

- Collections

Easily target audiences using the Collections feature. Publish activities and events to the entire school community or a defined group.
You are in control.

- Automations

Reduce the time spent with rule-based publishing. Match students to parents, remove images that cannot be published and personalise with watermark logos.

All can be done auto-magically.

Effortlessly manage your digital assets

Store & organise your content in SchoolBench. The cornerstone of the SchoolBench family, Media is where images & videos are stored, curated & made available to staff.

- Facial Recognition

With your own AI system that learns to recognise your students and teachers, enjoy automatic identification to know who's who in your school.

- Privacy Consent

Protect students, protect the school.

Photos & videos will have up-to-date privacy consent applied using the current information from your integrated Student Information System (SIS). Remove the guess work of what can be published.

- Search

Finding what you need has never been so easy. School relevant contextual tags are applied automatically including identities, privacy, year, term, week and event.

Capture

SchoolBench Mobile

Celebrate everyday moments

- Don’t mix work with personal

Balance the need for capturing everyday photo & video moments with governance by ensuring they are not retained on personal devices.

Stored securely within the app, content can only be uploaded to SchoolBench Media for review and removed after upload or a configurable time if never sent.

- Supports iPhone & Android

SchoolBench Mobile is available on both App Store and Google Play.
